Customisation PowerPVC Small Business

Operation starts with customisation of the Constructor of orders (programm Constructor). For this purpose start program Constructor and pass in the menu Options->Settings. Make customisations which are necessary for your business and manufacturing.

General

- to apply factor to cost;
> The received cost will be multiplied by the entered factor.
> For example, to raise cost on 20 %, it is necessary to enter coefficient 1.2.

- to instal the currency name in which you accept payment;
> The currency name will be on the sentence to the client and cost price and cost panels. Enter, for example, USD or Euro.
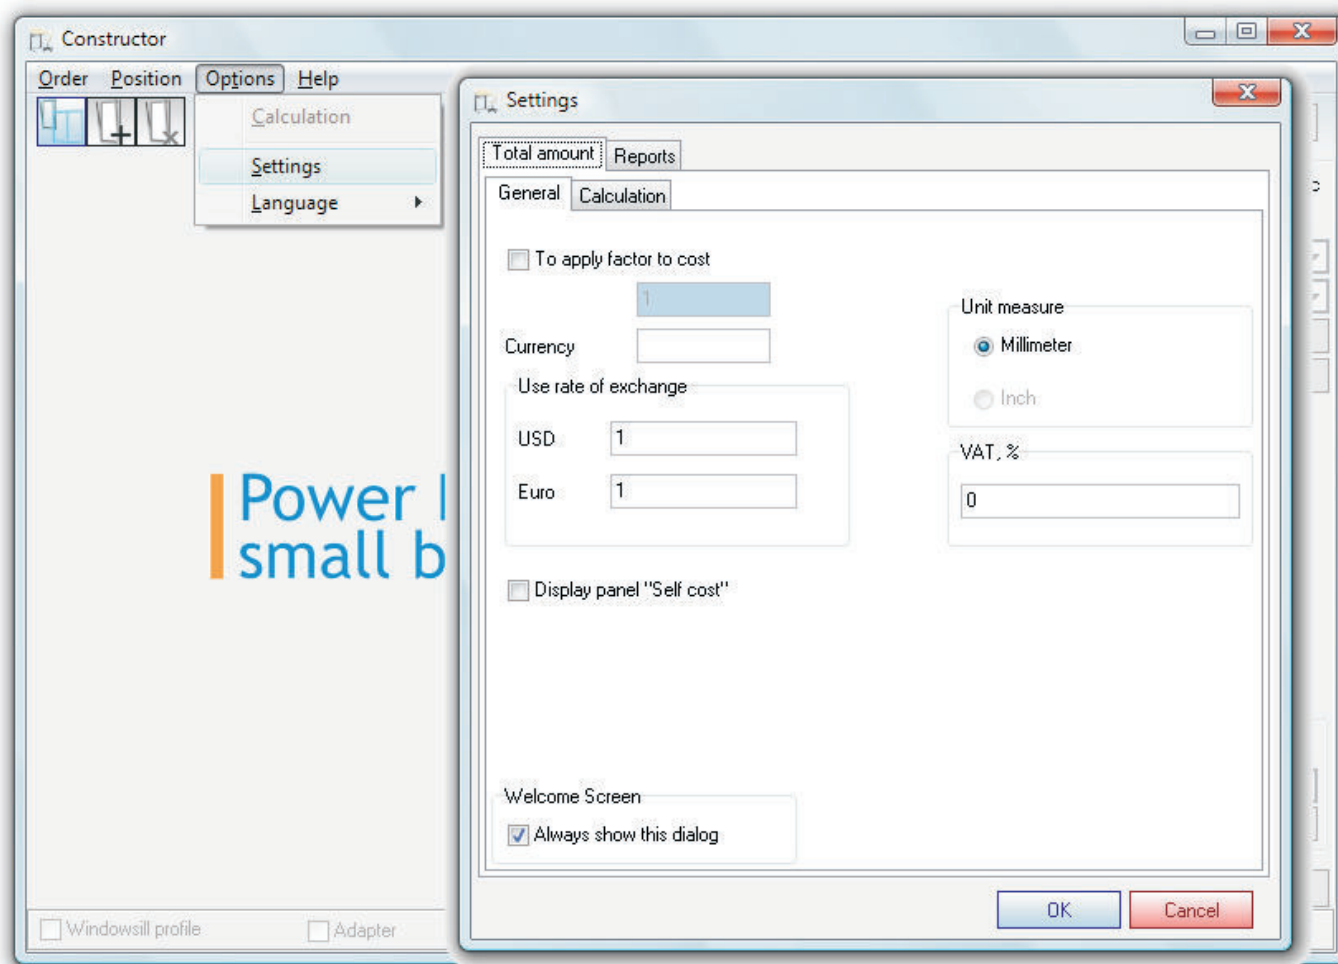

- To apply and instal a dollar exchange rate and euro;
> The cost price and cost of accessories will be increased by values which you specify.

- instal the VAT;
> In each country of the VAT (value-added tax) has different values. If it is necessary for you to select the VAT separately, specify its value in percentage.
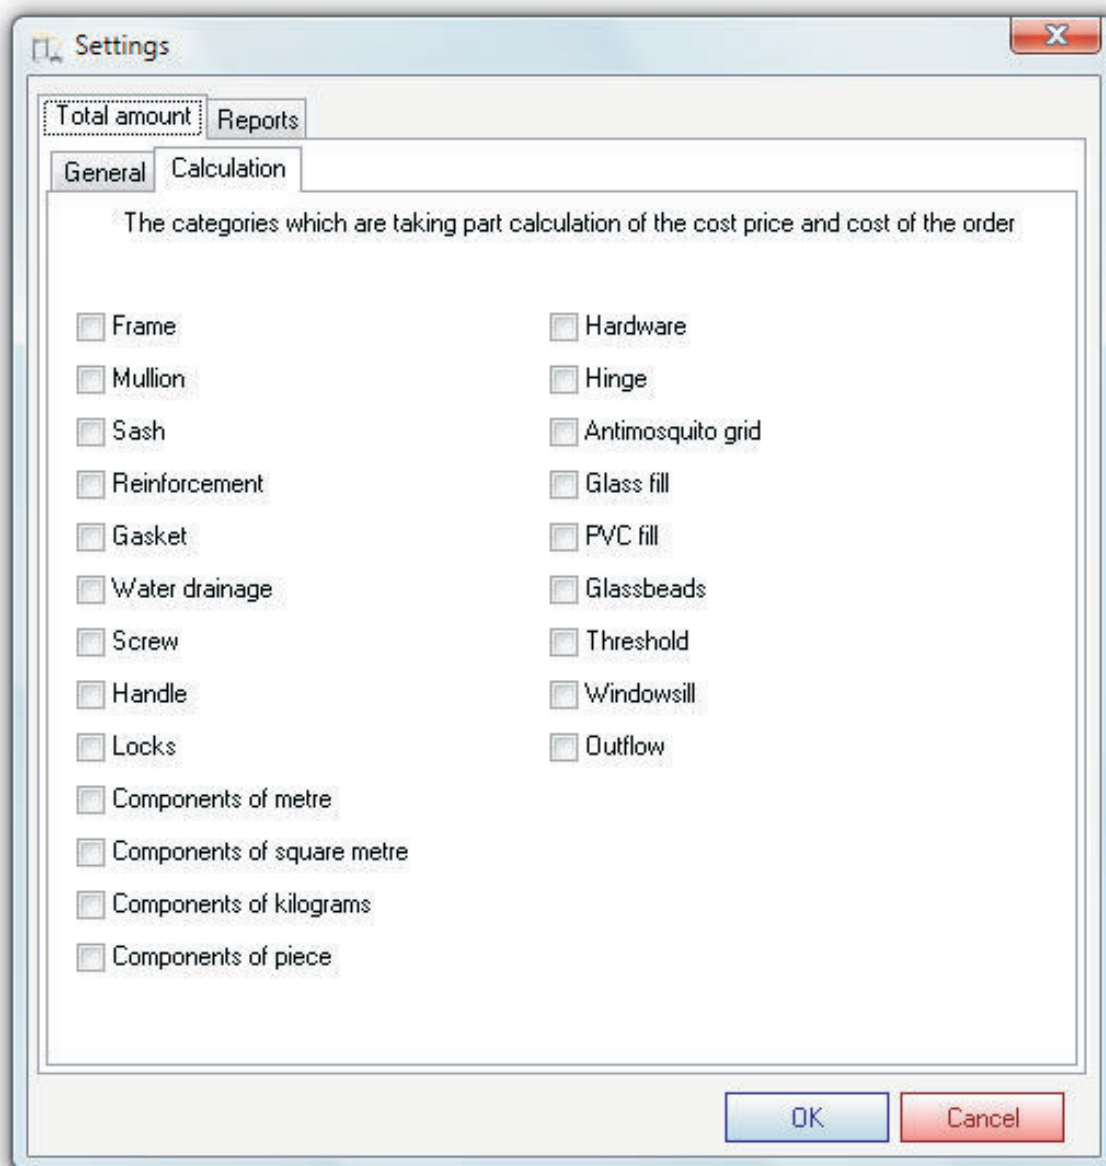

- To select panel "Cost price" mapping.

Calculation

PowerPVC Small Business allows you to do the business how you wish it.
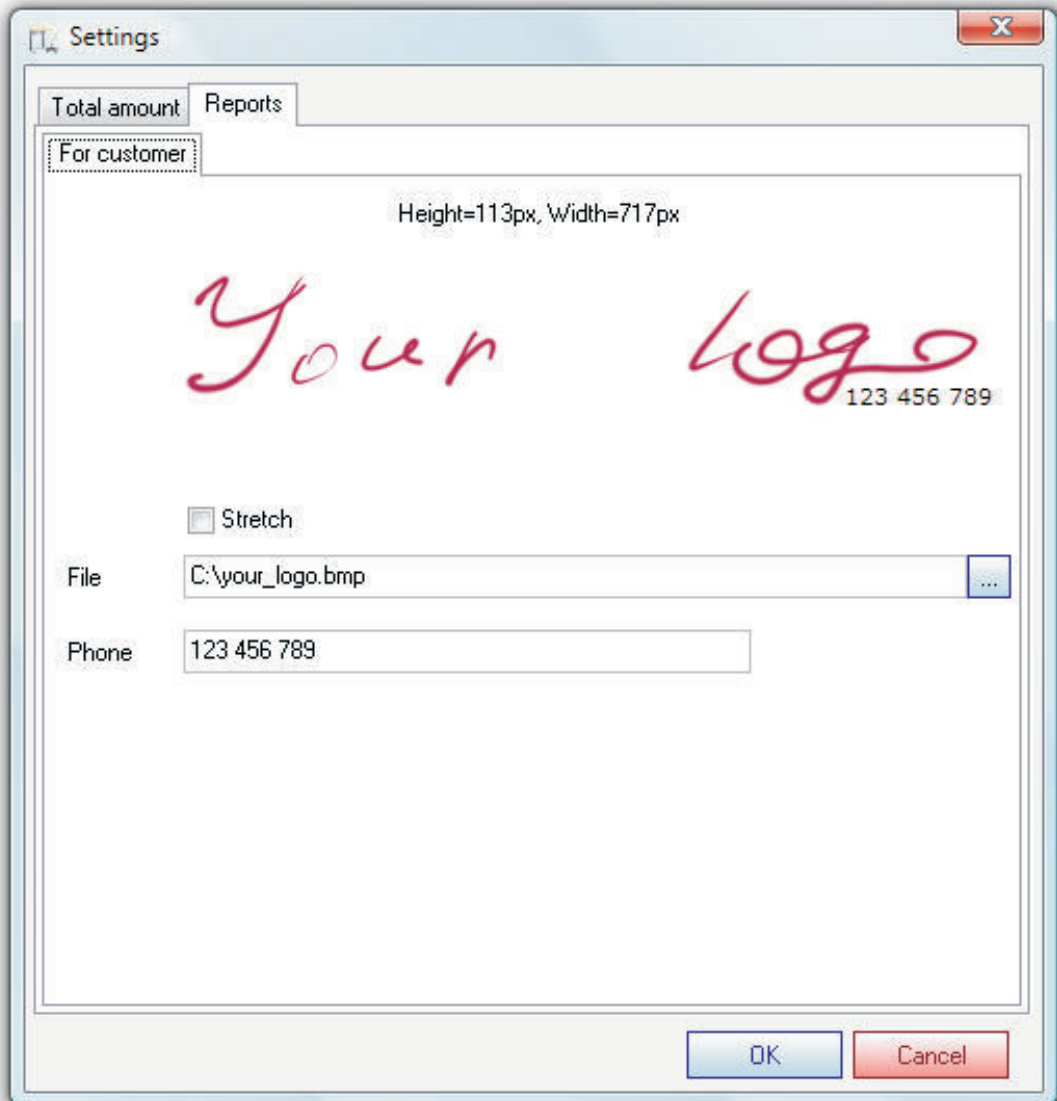

Select categories which will take part in calculations and instal opposite to them checkboxes. If you have brought the cost price and cost on all accessories instal all checkboxes. If for you the cost price and frame cost are included by the amplifier, compaction and screws then on a category "Reinforcement", "Gaskets" and "Screws" it is not necessary to put checkboxes.

Reports-For customer

Specify the co-ordinates and phone in the field Phone. Instal the logo. For this purpose click the button [...] opposite to File field also select a file with bmp extension with the logo. Now on the sentence for the client always there will be an information on you and your logo.

The logo is recommended to be created in the size on width of 717 pixels, on height - 113 pixels or are proportional to these sizes.

We congratulate

PowerPVC Small Business it is customised and ready to operation.
Now you can fill "Directory of Materials" with the accessories and to start calculation of orders.
